Get a discounted lodging rate.

For seminar attendees wishing to stay in the area overnight, Medical Mutual has secured a discounted room rate of $165 right there at the Harraseeket Inn for either Monday or Tuesday, June 4 or 5. Just call the Harraseeket at 1-800-342-6423 and mention the Medical Mutual seminar. The deadline for reserving is May 15, 2018.

Traveling more than three hours to attend the seminar? Mention it to Medical Mutual Seminar Coordinator, Andrea Lopez, when you register for the seminar and we'll provide your single night lodging at the Harraseeket Inn on a complimentary basis. It's our way of saying thank you for making a special effort to enhance patient safety in your practice. Availability is limited, though, so register for the seminar by contacting Andrea today at:

Phone: 1-800-942-2791

Acing test results management: Your patients depend on it.

Failure to diagnose is one of the most frequent allegations in medical malpractice claims. Studies have shown that a direct relationship exists between this allegation and the failure of systems that support test tracking, results management and follow-up systems in the ambulatory care setting.

In this afternoon seminar — which is based on a four-year Medical Mutual study of test tracking systems in over 150 primary care practices — you'll learn the essentials of developing and implementing a buttoned-down system of policies, procedures and training that helps protect you from unnecessary exposures and claims.

Electronic Health Records: Friend or Foe

The widespread implementation of electronic health records (EHRs) has spawned a significant increase in claims related to them. This additional presentation will shine a light on EHRs, the varying legal risks they present to providers and what your practice can do to mitigate those risks.

A Medical Mutual Practice Manager Seminar

Tuesday, June 5, 2018
Noon – 4pm

Harraseeket Inn, 162 Main Street, Freeport, Maine
